Southern Gulf Catchments takes an innovative approach to its regional body AGM

This year's Southern Gulf Catchments annual general meeting will be held at Julia Creek on 13 November. In addition to getting people from all around the region together to discuss NRM issues at the meeting, the conference will feature a trade display. Regional and state agencies have been invited to rent a display space to demonstrate their involvement in natural resource management to this diverse group of more than 300 attendees.

The display will be followed by the company's Annual Dinner, at which renowned ABC Radio Science presenter Robyn Williams will be addressing the event.

If your group is interested in applying any of these innovative approaches to running a regional NRM body AGM or would like to have a display, please contact Jacqui McClure on (07) 4743 1888 or communications@southerngulfcatchments.com.au

State Landcare Conference - Toowoomba

Congratulations to the Toowoomba Landcare Group for organising and hosting this year's State Landcare Conference. This year's conference was an extremely successful event, with more than 380 people attending from around Australia and overseas.

The conference was held over 4 days, from 2 – 5 September, and included several field trips which showcased the Darling Downs' natural assets. Delegates were very impressed at the level of organisation of the conference, and were kept entertained during their stay in Toowoomba.
